

The Dosing Regimen

SUTAB is a split-dose (2-day) regimen. A total of 24 tablets is required for complete preparation for colonoscopy. You will take the tablets in two doses of 12 tablets each. Water must be consumed with each dose of SUTAB, and additional water must be consumed after each dose.

Day 1, Dose 1 – On the Evening Prior to Colonoscopy (at 6PM)

Swallow the 12 tablets with the first 16 ounces of water

The day before your colonoscopy, open the first bottle of 12 tablets and take SUTAB as described below.

STEP 1 Open 1 bottle of 12 tablets. **Remove and discard the desiccant.**

Remove and discard the desiccant from the second bottle and close the bottle. Use the second bottle for the second dose on the morning of the colonoscopy.

STEP 2 Fill the provided container with 16 ounces of water (up to the fill line).

Swallow 1 tablet every 2 minutes. Drink plenty of water while swallowing and after swallowing each tablet. You should finish the 12 tablets and the entire 16 ounces of water within 24 minutes.

Tablets not shown actual size.

IMPORTANT: If you experience preparation-related symptoms (for example, nausea, bloating, or cramping), pause or slow the rate of drinking the additional water until your symptoms diminish.

Drink the additional two 16 ounces of water

STEP 3 Approximately **1 hour** after the last tablet is ingested, fill the provided container again with 16 ounces of water (up to the fill line), and drink the entire amount over 30 minutes.

STEP 4 Approximately **30 minutes** after finishing the second container of water, fill the provided container with 16 ounces of water (up to the fill line), and drink the entire amount over 30 minutes.

Day 2, Dose 2 – The Morning of the Colonoscopy

(4 hours prior to procedure arrival time)

Swallow the other 12 tablets with another 16 ounces of water

- Continue to consume only clear liquids until after the colonoscopy.
- Repeat Step 2 to Step 4 from Day 1, Dose 1.

Tablets not shown actual size.

- If you experience preparation-related symptoms (for example, nausea, bloating, or cramping), pause or slow the rate of drinking the additional water until your symptoms diminish.
- Complete taking all SUTAB tablets and water at least two hours before procedure arrival time.
